

## CONFERENCE AND WORKSHOP: APPLYING PESTICIDES USING DRONES

We are seeking expressions of interest to attend a Conference/Workshop on the application of pesticides by drone.

The event will be held at the Doubletree Hotel in York on 23-24 May. Attendees will have the opportunity to hear from and discuss issues with internationally recognised regulators, researchers and industry experts from North America, Asia, Europe and Australia. This will be an interactive event, including a workshop discussing best practice in planning and carrying out drone spraying.

Unfortunately, spaces at the event are likely to be limited. We are, therefore, at this stage, inviting expressions of interest. If you/your organisation would like to attend, please provide us with names/contact details/any organisational affiliation of individuals wishing to attend. If we are oversubscribed, we will have to limit numbers from each organisation.

Please register expressions of interest at [Events.CRD@hse.gov.uk](mailto:Events.CRD@hse.gov.uk) by **28 February 2023**.

This event is sponsored by the OECD Co-operative Research Programme: Sustainable Agricultural and Food Systems.
