

Chemicals Regulation Division

Live Online Training Event: Surface Water Exposure via Drainflow under Plant Protection Products regimes in GB and NI

Programme

Time (UK Time)	18 March 2025
09:00 – 09:10	Welcome, Housekeeping & Introductions
09:10 – 09:40	Introduction to surface water exposure via drainflow in the UK: <ul style="list-style-type: none">• Crops, soil types, timings• Key endpoints• Introduction to current guidance and assessment methods – first tier and higher tier approaches
09:40 - 10:25	Workshop session on using the first tier drainflow calculator: <ul style="list-style-type: none">• The workshop will present a guide to performing first tier calculations for both active substances and metabolites. An updated version of the tool will also be introduced.
10:25 - 10:40	Break
10:40 - 11:40	Workshop session on using the higher tier drainflow calculator: <ul style="list-style-type: none">• The workshop will present a guide to performing higher tier calculations using the HSE tool, how to present the results with consideration of relevant ecotoxicological triggers and will introduce upcoming changes to the tool.
11:40 – 12:25	Workshop session on ecotoxicological consideration of higher tier drainflow results: <ul style="list-style-type: none">• The workshop will provide information on further ecotoxicological approaches where required, for example, where higher tier ecotoxicological studies are used and the exposure profile in the study needs to be compared to the predicted exposure profile.
12:25 - 12:45	Key issues when preparing applications: <ul style="list-style-type: none">• Common issues with applications• Metabolites• Mixed active products• Use of risk envelopes
12:45 - 13:00	Question and answer session
